

SAMUEL NDIRANGU KARIUKI

CYBERSECURITY & DIGITAL FORENSICS UNDERGRADUATE

Aspiring Security Engineer | SOC Analyst | IT & Technology Leader

PROFESSIONAL SUMMARY

Cybersecurity and Digital Forensics undergraduate at the Open University of Kenya, currently pursuing a Bachelor of Science degree with a strong interest in Security Operations, Incident Response, Digital Forensics, and Cloud Security. Experienced in leading IT and Robotics initiatives while supporting technology operations in educational environments. Hands-on experience in SIEM alert monitoring, log analysis, incident investigation, and threat detection through Let's Defend and TryHackMe cybersecurity labs. Demonstrated leadership, analytical thinking, and problem-solving abilities developed through both professional and academic experiences.

EDUCATION

Bachelor of Science in Cybersecurity and Digital Forensics

Open University of Kenya
November 2023 – Present

Currently enrolled and eligible for internship placement as part of degree requirements.

KAGUMO TEACHERS COLLEGE – DIPLOMA IN TEACHER EDUCATION

FEB 2014-NOV 2016
Solid teaching career in Computer Studies and Mathematics.

EXPERIENCE

Teachers Service Commission (TSC)

Teacher, Mathematics & Computer Studies | Head of IT & Robotics Department

September 2018 – Present

- Lead IT and Robotics initiatives supporting technology integration across the institution.
- Manage computer laboratory infrastructure and technology resources.
- Provide technical troubleshooting and user support for staff and students.
- Promote responsible technology use and cybersecurity awareness.
- Coordinate technology projects that encourage innovation and STEM learning.
- Maintain documentation and support operational continuity of IT resources.

Collaborate with stakeholders to improve technology adoption and effectiveness

KEY SKILLS AND CHARACTERISTICS

Cybersecurity: SIEM Alert Monitoring • Security Incident Investigation • Threat Detection • Log Analysis • Incident Response • Digital Forensics • Security Awareness • Network Security

Networking: TCP/IP • DNS • DHCP • Network Traffic Analysis • Wireshark

Systems & Platforms: Windows Administration • Linux • Microsoft 365 • IT Support • System Troubleshooting

Programming & Tools: Python • SQL • Linux Command Line

Professional Skills: Strong Interpersonal & Communication Skills • Problem Solving • Leadership • Team Collaboration • Documentation & Reporting • Excellent Organizational Skills • Attention to Detail • Ability to Work Under Pressure

CYBERSECURITY PROJECT EXPERIENCE

SECURITY OPERATIONS CENTER (SOC) LABS

- Investigated simulated security incidents using SIEM platforms.
- Monitored and analyzed security alerts, logs, and indicators of compromise.
- Conducted threat investigations involving phishing, malware, and unauthorized access attempts.
- Performed alert triage, incident classification, and escalation procedures.
- Prepared incident reports and remediation recommendations.

DIGITAL FORENSICS INVESTIGATIONS

- Applied forensic techniques for evidence collection, preservation, and analysis.
- Investigated cyber incidents in controlled laboratory environments.
- Documented findings and prepared forensic investigation reports.

NETWORK SECURITY ANALYSIS

- Monitored network traffic for suspicious activities and security anomalies.
- Identified potential threats through traffic and log analysis.
- Applied security controls and mitigation strategies based on investigation findings.
